

Sponsorship Opportunities

The 7x24 Exchange Southern California chapter is a non-profit organization. The board members are all volunteers who have a common goal to share industry knowledge, experiences, and education to increase networking opportunities for all. The local chapter is always looking for sponsors. The revenue from sponsorship is used to ensure the organization has enough funds to host an event. Any leftover funds are used for raffle prizes, dinner & drink upgrades, and special events such as a holiday party or a summer social event geared towards networking.
